

48 Tenets of Officer Survival

Hours: Eight

This emotionally charged presentation offers forty-eight rules that will enhance officer survival on the street or correctional facility. Officer survival information and tactics have increased by ten-fold over the last twenty-five years – but the number of officer assaults and deaths are on the rise. Why? The problem is not tactical; it is the cultural, educational, and philosophical pacification of America. This seminar takes you beyond tactics and mindset to address:

- Redefining “Cover”
- Analysis of officer assaults
- How technology is killing cops
- Developing a winning mind set
- Stress and survival performance
- History of officer survival tactics
- Modern culture and officer survival
- Why bad things happen to good officers
- How dogmatic thinking gets officers killed
- Why the pacification of America is killing officers
- Tactics for surviving armed and unarmed assaults
- Understanding the importance of warrior values in 21st century law enforcement
